Academic information		
Study programmes	Exchange programmes cluster	Technology - Fall semester 2025
Deadline	Partner universities need to send the nominations to <a href="mailto:studytechnologyabroad@fontys.nl">studytechnologyabroad@fontys.nl</a> before 1 November to give students enough time before the deadline of application.	
	Spring semester 2026 Deadline for nomination Deadline for application Introduction period t.b.d. Lectures and exams	1 November 2025 15 November 2025 Early-February 2026 February 2026 – July 2026
Exams and retakes	Exams: Exchange students have the right to do at least 1 exam for each course on their learning agreement. The dates of the exams differ per programme. The schedule of the exact dates will be published timely on our portal.  Retakes: Students may partake in a retake, but do not have the right to. Most retakes take place at the end of the semester. FHTenL does not send exams/retakes to exchange students. No alternative assignments will be offered. If regular retakes are scheduled before the departure date, students are allowed to sit in on those retakes. If students want to return to sit on a retake then that is allowed as well.	

Teaching Language	English	
ECTS	A student's workload is measured in ECTS credits (European Credits Transf	
	System). According to Dutch law, one credit represents 28 hours of work	
	and 60 credits represents one year of full-time study. The grading system	
	used in the Netherlands is on a scale from 1 (very poor) to 10 (outstanding).	
Requirements	Different per programme so check the requested programme on	
	Exchange programmes cluster Technology	
Additional		
Fontys way of studying	At Fontys you study in various ways. In practical lectures you work	
	independently or with a project team on your assignments. The campus	
	offers a wide array of facilities to study alone or with a group. During the	
	whole study programme you will work in projects, a method which will	
	stimulate a hands on, independent way of working. At Fontys we believe in	
	interaction. We like it when you ask questions during lectures and also	
	outside lectures we are there for you.	
Tuition fees	Students of partner universities do not pay tuition fees, as a student from a	
	non-partner university you will need to pay €75 per ECTS.	
Costs of living	The average living expenses per month for a foreign student living and	
	studying in the Netherlands are approx. €900 per month. These living	
	expenses cover rent, insurance, food, public transportation, books, clothing	
	and other general costs.	
Accommodation	We advise students to rent Fontys arranged accommodation (dormitory	
	nearby campus) but it is possible for students to arrange their own	
	accommodation. If a student would like to reserve a room they can do this	
	by filling out the accommodation form which will be provided during the	
	online application. Monthly rent will be between €400-450.	
Visa	Required for all non-EU students, Fontys will apply for this and provide all	
	the information timely.	
Insurance	Recommended for all exchange students (information will be provided	
	through the online application system) but mandatory for all non-EU	
	students who will receive this information during the visa application.	
Study Abroad events	We frequently organise a Study Abroad activities for our students, to inform	
	and enthusiasm them for and exchange period at partner universities.	
	We appreciate to receive information from our partners to use at the fair	
	and also help from our incoming students from partner universities.
